The program supports career development for Social Security Disability beneficiaries ages 18 through 64 who want to work. This voluntary program is free and helps people with disabilities progress toward financial independence.

Young Adults Program, Service Youth in San Diego

Young Adults (16-25) will be coached by Job Developers or Case Managers and provided with specialized services through unique employment preparation activities. Young Adults will learn more about the meaning of "soft skills" and why it is the single largest requirement of today's employer. And how to communicate and work well with your supervisor and peers, meet the expectations of the employer (such as being to work on time and bringing your best each day), respect for others and their opinions, appropriate workplace behavior, the difference between personal and professional relationships, and social media do's and don'ts.
