

Sonoma Connect | Sonoma Unidos

Leading Change by Centering Community

Adriana Arrizón, Director Cynthia King, MSW, MPH, Action Team Chair

aces aware

CIE Conference August, 2022

- 1 Human Centered
- 2 Dismantle systems
- Responsive system and programming

- 4 SDOH and ACEs
- Coordination and alignment of systems
- Measure what needs to be changed

Expanding Focus areas

Support Mental Health and Culturally Responsive Care to work towards *healing our community*.

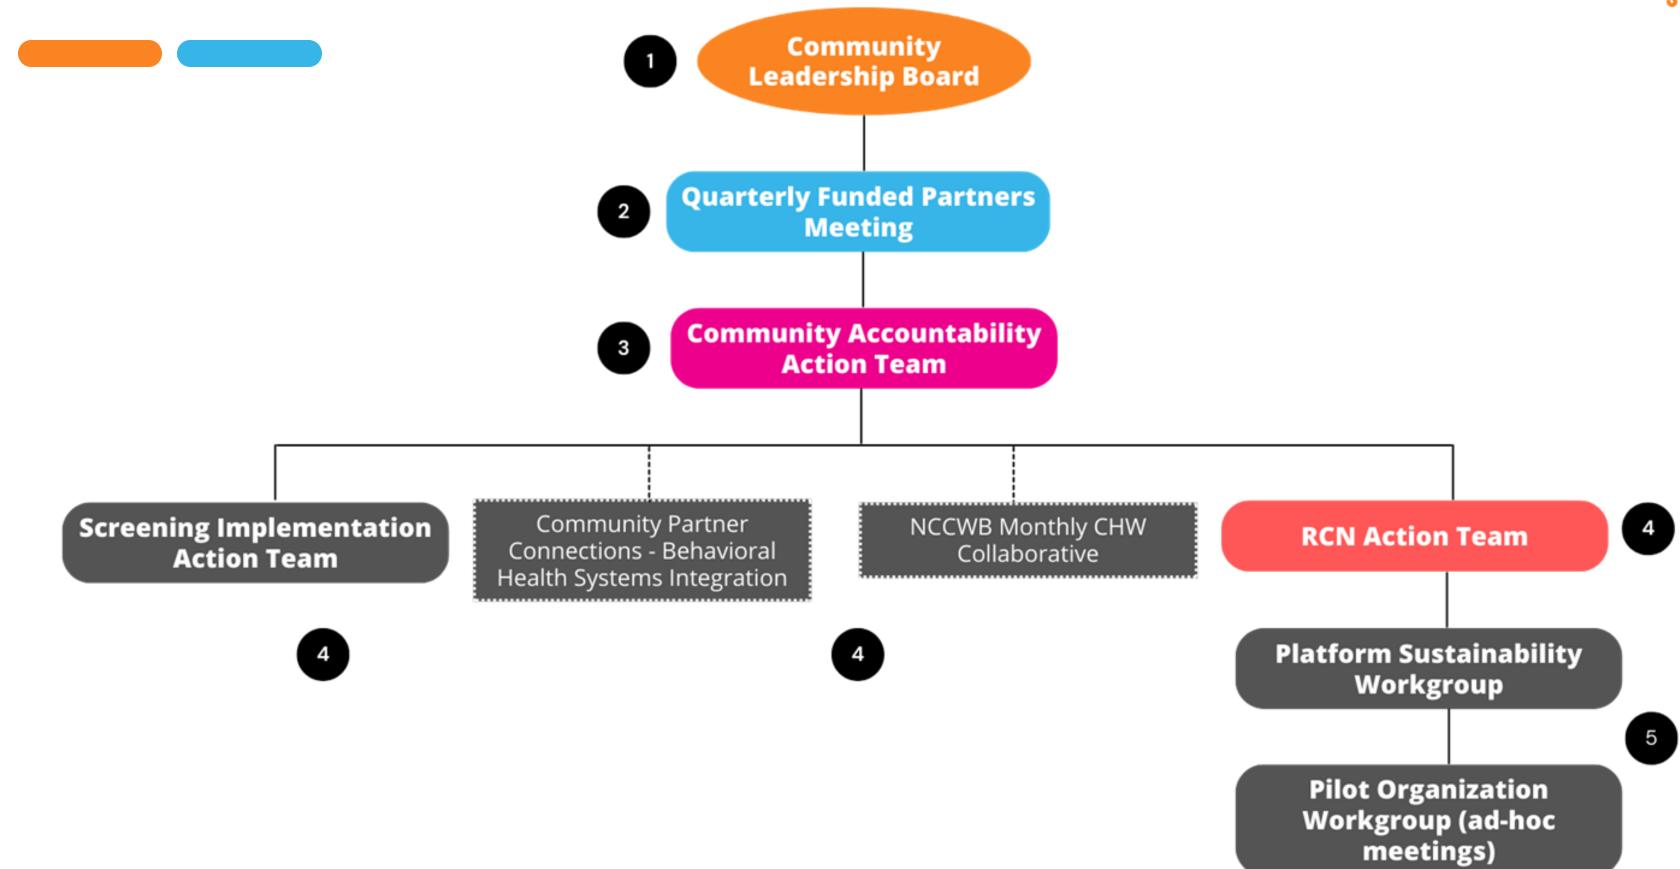

91 organizations represented

- **5** school orgs
- **44** CBOs
- 14 Health Centers
- 6 local and state government orgs
- 22 other orgs & individuals

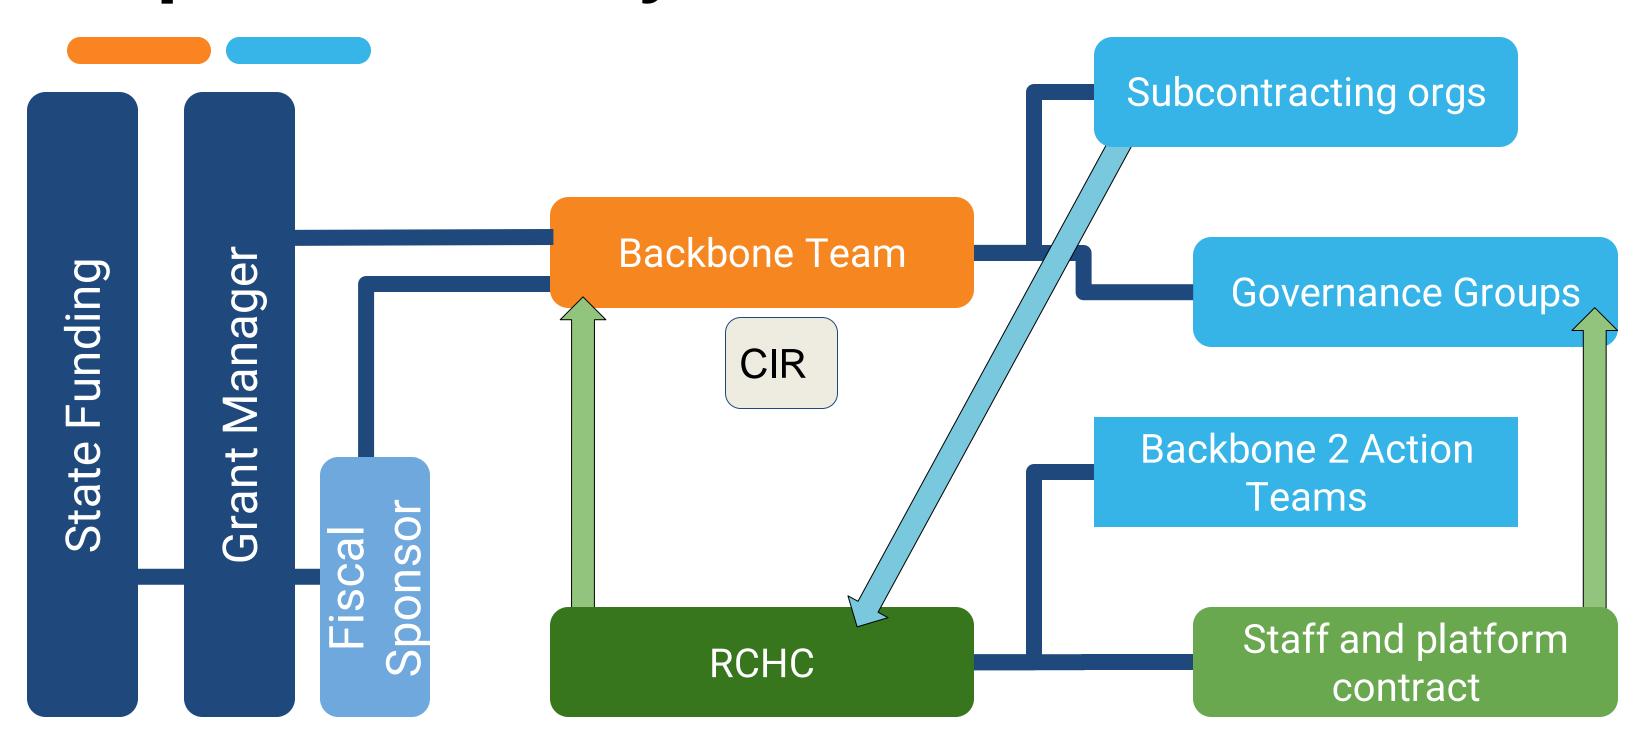

Organizational Structure

Dispersed Authority

Trauma informed process

How to support our staff and partners as they are doing trauma informed work

Our Strategies

Clinical Implementation Action Team

Co-chairs:

- Dr. Dierdre Bernard-Pearl,
 Santa Rosa Community Health
- Jessicca Moore, Petaluma
 Health Center

Community Accountability Action Team (CA-AT)

Co-chairs:

- Lilian Merino, Redwood
 Community Health Coalition
- Rocio Monter, CAP Sonoma

Resource Connection Network Action Team (RCN)

Co-chairs:

- Cynthia King, Frontline
 Workers Counseling Project
- TBD

RCN Action Team

- Clear position that technology is a too and only part of a solution
- Medical and social system integration
- Ecosystem to support right level of care delivery
- Facilitated roup process

Selection Timeline

Need Identified

Sonoma County's many data systems causes duplicated data entry, and disconnected support to the community.

The RCN Action Team convened 79 participants from 45 different community orgs to define criteria for the tech selection.

RCN Action Team

Request for Proposals

- 1. RCHC & Intrepid Ascent developed an RFP
- 2. RCN organized meetings with tech vendors presentations
- 3. Community stakeholders ranked ranked vendors
- 4. Results were presented to CAAT and CLB for input

2. Platform chosen and acquired (NinePatch)

4. Initial implementation and bug fixes with pilot cohort

6. Expanded implementation with additional partners

1. Community engagement to drive platform goals, community priorities, technical criteria

3. Build system and workflows with community input

We are here!

5. Outreach and Training

7. Build out and implementation of ongoing support and additional functionality

Community Accountability Action Team

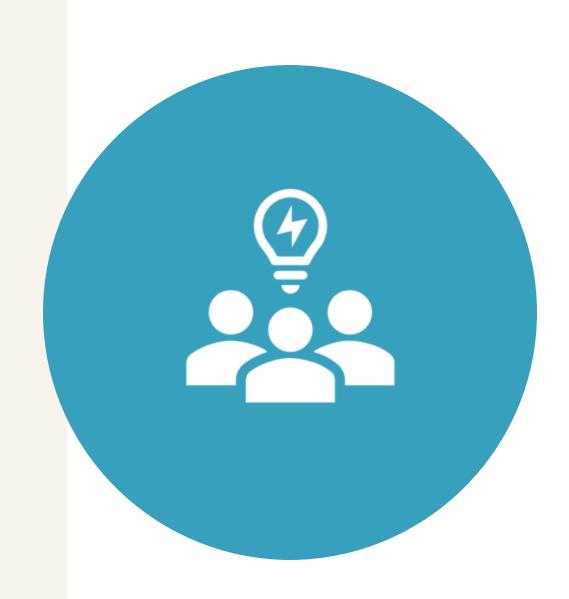

Healing-centered community engagement

Center community voice

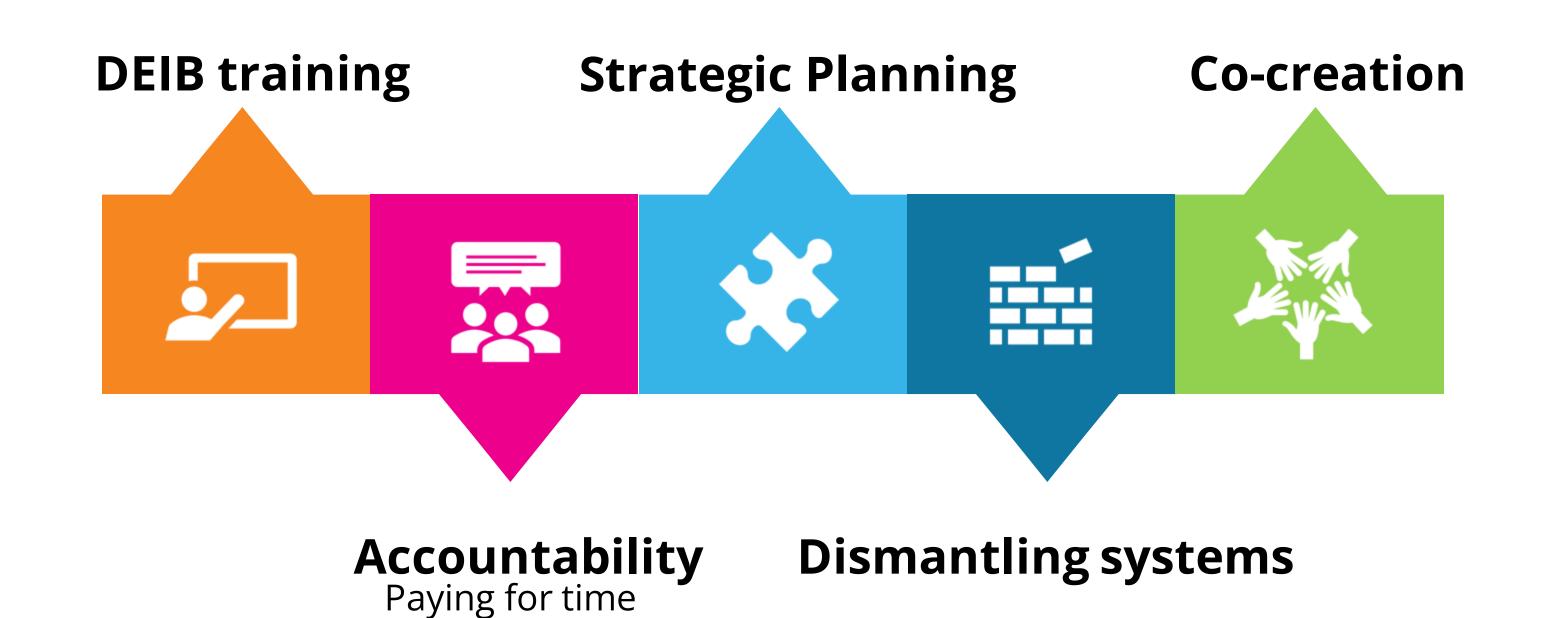

Leadership for BIPOC communities

Organizational & workforce capacity development

Authentic Engagement and Community Decision Making

Let's Connect

As you are aware, in California we are uniquely positioned to convene and align community-led data-sharing efforts in anticipation of funding that is slated

to release this fall. On August 25-26, 2022, the

<u>CIE California Forum</u> will bring together stakeholders across the state to (1) discuss and align our vision and goals for cross-sector data sharing systems; (2) explore how to leverage the CIE model for systems change; and (3) identify opportunities for future collaboration around state funding to support community health.

We immediately thought of having you/your team speak during the Learning Sessions on the first day.

The Learning Sessions are designed to share different community perspectives with respect to enabling cross-sector data sharing infrastructure.

Specifically, we would like for you to present your experience leveraging ACES funding to support the development of Sonoma Connect/Sonoma Unidos. Of course, we are open to your thoughts on presentation content and scope.

If you are interested, we would love to set up a short call to discuss the meeting in more detail.

Breakout Room

- Discussion of authentic and effective community leadership and engagement
- How to manage the funder relationship in a way that allows for flexibility and adjusted timelines when needed
- The importance of selecting the representative leaders with a systems orientation and existing relationship
- Shared values and definitions
- Facilitating engagement with reasonable expectations of participants
- Creating an RFP and selection process for technology that is inclusive and accessible
- The importance of the healthone toom
