# Sponsorship Opportunities

This year, we're keeping it local! The CIE California Forum brings together California-based networks to identify the governance and technical infrastructure needed to launch new health initiatives that support communities across the state.

Your sponsorship makes it possible for us to provide the opportunity for collaboration and conversations among organizations leading the nation in community health and systems change innovation. We offer a variety of sponsorship levels to meet your budget and promotional needs. For questions, please email us at: [sponsorship@ciesandiego.org](mailto:sponsorship@ciesandiego.org).

\*Community Conversations will take place on the second day of the Forum. These conversations are only for registrants and any vendors will not be able to attend, but will be recognized as supporters.\*
