What is the CIE?

A CIE is a community-led ecosystem comprised of multidisciplinary network partners who use a shared language, resource database, and integrated technology platforms to deliver enhanced community care planning. A CIE enables communities to shift from a reactive approach to addressing social needs, to an approach that is more proactive, holistic and person-centered. At the very core of a CIE is the community it serves, and with the community as its compass, a CIE seeks to support antiracism and health equity.
CIE San Diego Membership Includes

Local governance/stewardship to ensure care coordination among the San Diego community

- **CIE Advisory Board**: A council that embodies cross-sector representation, reflecting the diverse client population and community needs. Members are recruited to support the strategic vision and the needs of the community.
- **Monthly Partner Meetings**: An avenue to form connections with representatives from across the network of partners, learn the latest news about CIE utilization, impact, and growth. Participants stay in the know about multi-sector initiatives, share best practices and feedback that will shape how CIE evolves to meet the needs of network partners and community members.
- **Workgroups**: A variety of subcommittee opportunities that focus on aligning network policies, practices and initiatives that impact our health and social community providers.

Access to online CIE San Diego portal and data integration support

- Set number of Salesforce Log ins for each member organizations direct service staff.
- Longitudinal person record inclusive of data from healthcare and social service agencies
- Bi-directional referral capability, enabling closed-loop outcomes for resources and tracked program enrollments.
- User feedback mechanisms including surveys, user experience listening sessions, and focus groups
- Provider role-based permissions and licensed access to the CIE San Diego Portal, including access to person-centered records and a suite of care coordination tools

Community Information Exchange® and CIE® are registered trademarks of 211 San Diego.
Learning Network & Partnership opportunities

- Tailored onboarding, implementation and integration support that includes consultation, demos, and training;
- Toolkit for planning and implementation;
- Option to form an affinity group with other network partner organizations to support multi-agency care coordination between community-based organizations, health centers, hospitals, healthcare providers and health plans;
- Eligibility to join existing collective impact initiatives;
